

## EGO CUP – Bluetooth® hands-free “to go”

Convert your cup holder into a state-of-the-art Bluetooth® hands-free car kit with the EGO CUP.

The installation only takes seconds – just connect the cigarette lighter adapter and place the EGO CUP in one of your cup holders – done. Unlike other self installed hands-free car kits, the EGO CUP uses technology which is normally only available in expensive and permanently installed systems.

### EGO CUP | Features
